

# MATTHEW GERGLEY

(845)-490-1241 | matthew.gergley@gmail.com | <https://www.linkedin.com/in/matthew-gergley/>

## EDUCATION

<b>Utah Tech University</b>	Aug. 2022 – May 2024
<i>Bachelor of Science in Mathematics, cGPA: 3.88/4.0</i>	St. George, UT
<ul style="list-style-type: none"><li>Key Coursework: Python, Mathematical Modeling, MatLab, Statistical Inference, Physics I/II, Number Theory, Abstract Algebra, Discrete Mathematics, Real Analysis</li><li><b>Presidents List:</b> Spring 2023, Fall 2023, Spring 2024; <b>Deans List:</b> Fall 2022</li></ul>	
<b>University of Massachusetts Amherst</b>	Aug. 2021 – May 2022
<i>Major: Mathematics; Transferred after an academic year, cGPA: 2.98/4.0</i>	Amherst, MA
<ul style="list-style-type: none"><li>Key Coursework: Linear Algebra, Differential Equations, Statistics</li></ul>	

## KEY RESEARCH PROJECTS / PRESENTATIONS

<b>A Mathematical Model of HPA Axis Dynamics and Impacts of Alcohol Consumption</b>	
<i>Python, MatLab, Differential Equations</i>	June 2023 – present
<ul style="list-style-type: none"><li>Developed a mathematical model utilizing a negative feedback loop showing how varying levels of alcohol consumption impacts stress response.</li><li>Included circadian drive analysis relative to an individuals BAC.</li><li>Presented at the <b>Joint Mathematics Meeting 2024</b> (JMM) in San Francisco, CA, the <b>Utah Tech Research Symposium 2024</b>, and the <b>International Mathematics and Statistics Student Research Symposium 2025</b>.</li><li>Currently in the publishing process in the <i>International Journal of Mathematics and Computer in Engineering</i>.</li></ul>	
<b>Optimizing Police Patrolling</b>	
<i>Linear Algebra, Statistics, Optimization, Python, SQL</i>	Jan. 2023 – May 2023
<ul style="list-style-type: none"><li>Worked with the Santa Clara/Ivins Police Department to develop a patrol route that optimizes response time and also ideal shift change times.</li><li>Generated heat maps for 911 call locations based on a call severity scale and provided insights into seasonal differences.</li><li>Presented to the <b>Santa Clara/Ivins Police Department</b> and at the <b>Santa Clara/Ivins City Alliance Luncheon</b>.</li></ul>	
<b>Maximizing Astronaut Productivity</b>	
<i>Differential Equations, Statistics, Optimization, Python</i>	Aug. 2022 – Dec. 2022
<ul style="list-style-type: none"><li>Developed astronaut work schedule, via our mathematical model, that maximizes astronaut productivity while minimizing stress.</li><li>Utilizing a normal distribution to model productivity in relation to cortisol levels following the Yerkes-Dodson Law.</li><li>Presented at the <b>MAA Intermountain Section Meeting 2023</b> and the <b>Utah Tech Research Symposium 2023</b>.</li></ul>	

## EXPERIENCE

<b>Mathematics Tutor</b>	Sep. 2022 – May 2024
<i>Utah Tech University</i>	St. George, UT
<ul style="list-style-type: none"><li>Tutored university students across various mathematics disciplines, improving their understanding and academic performance.</li><li>Collaborated with other tutors and managers in order to improve efficiency in the tutoring center.</li></ul>	
<b>Cashier</b>	Aug. 2018 – Mar. 2021
<i>Kobackers Market</i>	Brewster, NY
<ul style="list-style-type: none"><li>Provided customer service, handled transactions, and managed product inventories.</li></ul>	

## SERVICES

<b>PREP Summer STEM Program Assistant</b>	May 2023 - Aug. 2023
<i>Utah Tech University / AmeriCorps</i>	St. George, UT
<ul style="list-style-type: none"><li>AmeriCorps position.</li><li>Ensured the safety and appropriate behavior of seventh-grade program participants.</li><li>Assisted teachers in grading, hands-on activities, obtaining supplies, data collection, etc. in the classroom.</li><li>Served as a mentor to students, encouraging the development of a commitment to educational achievement.</li></ul>	

## PERSONAL PROJECTS / SELF-STUDY

---

### Lie Theory/ Lie Algebras

*Self-Study*

Sep. 2024 - present

Harwinton, CT

- Pursuing understanding of Lie Theory / Lie Algebras through online textbook sources (<https://www.math.stonybrook.edu/~kirillov/mat552/liegroups.pdf>) and online video resources.
- Completing proofs of theorems, corollaries, etc. and maintaining a LaTex file full of my notes and proofs.

### Orbital Mechanics

*Personal Project*

Feb. 2024 - present

Harwinton, CT

- Simulating the orbit of a satellite in low Earth orbit (LEO).
- Accounting for Earth's oblateness through J2 perturbation.
- Simulating and calculating  $\Delta v$  for plane change maneuver.
- Creating and maintaining working Python script and a LaTeX document outlining the mathematics/physics utilized and needed.

## TECHNICAL SKILLS

---

**Languages:** Python (Advanced), C++ (Intermediate), SQL (Beginner), MatLab (Intermediate)

**Skills:** Mathematics, Abstract Algebra, Classical Mechanics, Mathematical Modeling, Simulation, Linear Algebra, ODEs, Number Theory, Statistics

**Key Libraries:** Pandas, NumPy, SciPy, Matplotlib
